STEEL
Youngstown Kitchens
 BY MULLINS

KITCHENAIDER 42" DELUXE

42" Wide—24" Front-to-back—36" from floor to bowl rim

Compact in size, but large in labor-saving convenience, is this 42" DeLuxe Kitchenaid cabinet sink. It is designed for installation in apartments and smaller homes, where space is limited or confined. Sturdily built, will give years of kitchen service.

Steel-constructed throughout, it's a lifetime kitchen marvel.

THE SINK TOP. One-piece Kitchenaid top is finished in finest acid-resisting porcelain enamel. Has impressed soap dish and 4" back-splash. Gleaming finish wipes clean with damp cloth.

RIGHT OR LEFT DRAINBOARD. Drainboard to right or left of bowl, to fit available installation space to best advantage. Fluted, no-tip construction. Porcelain-enamelled steel.

MIXING-FAUCET. Swings freely to both sides of bowl. Spout is $7\frac{1}{2}$ inches. Bright metal, long-life handles. Flexible rinse spray speeds dishwashing.

BOWL. Curved, no-splash and easy to clean. Four-inch crumb-

cup strainer. A half turn converts bowl to dishpan. Bowl either right or left, to best suit location of Kitchenaid.

CABINET. Finished in Hi-Bake enamel, inside and out. Twin doors under bowl for easy access to large storage compartment. Doors are heavily insulated and of double construction. Handy soap-box rack inside under-cabinet door. Torpedo catches, positive acting (no sticking). Additional storage compartment under drawers. Linoleum-lined cutlery drawer at top is partitioned for convenience. Utility drawer below. Drawers sound-deadened, slide easily on brass runners. Youngstown Kitchens Food Waste Disposer can be installed easily. Total storage capacity: 11.80 cubic feet.

RECESSED PANEL in cabinet front and 4" set-back in sub-base give toe and knee space. Correct height (36") takes strain out of standing.

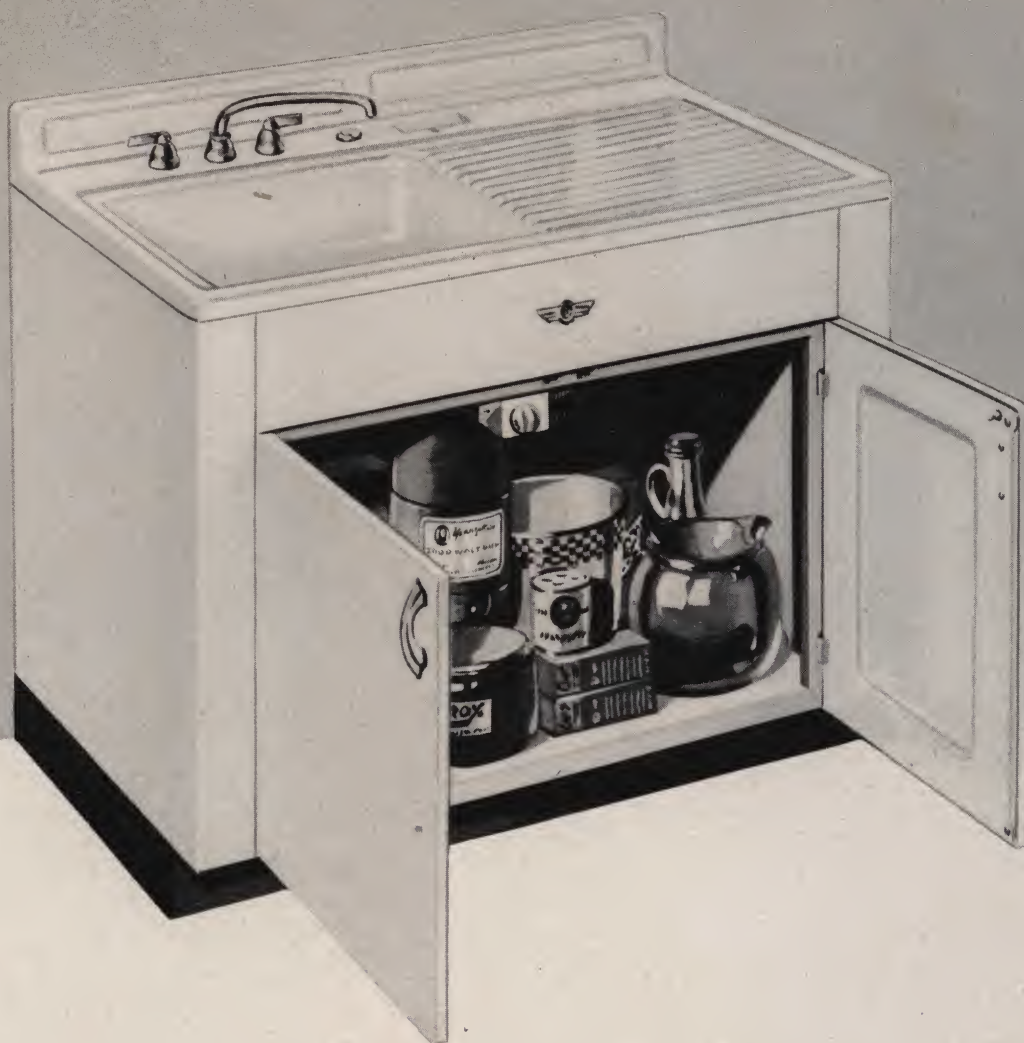

The Youngstown Kitchenaid 42" DeLuxe is built throughout for a lifetime of efficient service.

KITCHENAIDER 42" STANDARD

42" Wide—24" Front-to-back—36" from floor to bowl rim

Designed for the many apartments and small homes where space is at a premium, this 42" Kitchenaid cabinet sink fills the bill to perfection. Practical and rugged, it will last through years of work-saving service.

THE SINK TOP. Built of sturdy steel to last a lifetime. Spacious top, of one-piece construction, is finished in finest acid-resisting porcelain enamel with 4" back-splash that protects walls. Has impressed soap dish. Drainboard on either right or left side of bowl, to best suit kitchen space. Fluted for quick draining, with "no-tip" design. Beautiful white surface wipes sparkling bright with a damp cloth.

MIXING-FAUCET. The $7\frac{1}{2}$ " spout swings freely for convenience. Attractive metal handles add bright, decorative touch.

BOWL has curved, no-splash construction. Includes crumb-cup strainer for double protection. Half-turn of strainer converts bowl to dishpan.

CABINET finished in gorgeous Hi-Bake enamel, inside and out. Handsome black sub-base is set back 4" to provide toe room. Twin-door compartment recessed to provide knee room. Correct height of 36" takes the strain out of standing. Has 11.55 cubic feet of storage space.

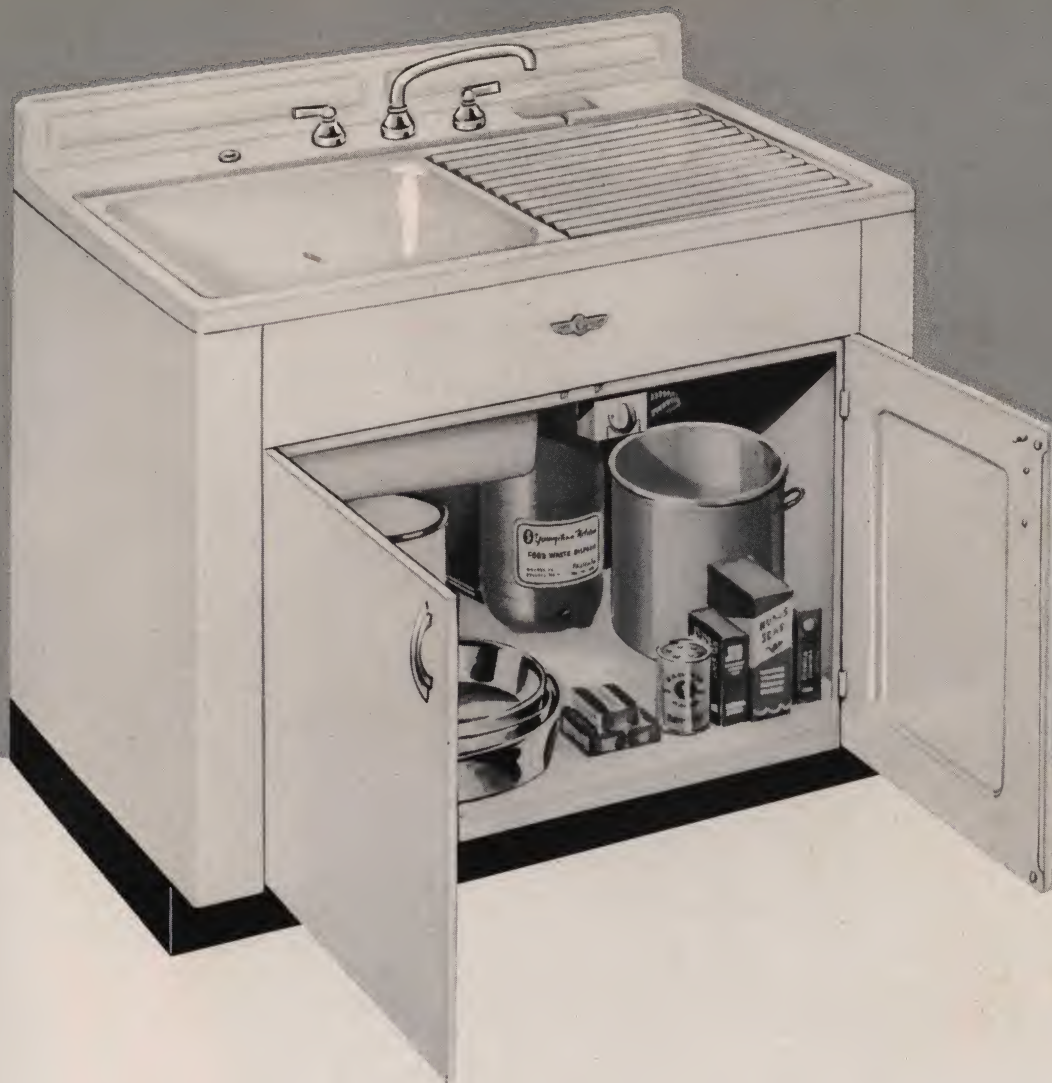

HUGE COMPARTMENT. Twin doors under sink allow easy access to roomy compartment designed to hold bulky kitchen equipment. Doors are heavily insulated for sound-deadening properties. Youngstown Kitchens Food Waste Disposer can be easily installed.

 42" Twin

Youngstown ^{STEEL} *Kitchens*

BY MULLINS

KITCHENAIDER 42" TWIN

42" Wide—24" Front-to-back—36" from floor to bowl rim

Short and sweet, but large in convenience, the Kitchenaid 42" Twin is designed for apartments and smaller homes where space is limited. It is sturdily built of rugged steel and will give years of kitchen pleasure.

THE SINK TOP is of one-piece construction, finished in finest acid-resisting porcelain enamel. Impressed, self-draining soap dish keeps soap from wandering. The 4" back-splash panel protects your walls. Beautiful white surface wipes sparkling bright with a damp cloth.

MIXING-FAUCET. The spout swings freely to either bowl or back out of the way. Attractive metal handles add decorative touch.

SLIDING-REMOVABLE DRAINBOARD of porcelain enamel provides spacious, handy working area. Slides easily to cover either bowl. Lifts off when both bowls are in use. Fluted surface allows quick draining.

TWIN BOWLS, one *extra-deep* (11"), are curved, have no-splash construction. Dishes can be washed in one, rinsed under hot water in the other. *Extra-deep* bowl (available on right or left) also ideal for light laundry or freshening vegetables. Crumb-cup strainer catches refuse, empties easily. A half-turn closes drain stopper, converts bowl into a dishpan.

CABINET is finished in gorgeous Hi-Bake enamel, inside and out. Handsome black sub-base has set-back of 4" at floor to provide toe room. Twin-door compartment recessed to provide knee room. All doors are heavily insulated for sound-deadening qualities. Correct height of 36" takes the strain out of standing. Has 9.70 cubic feet storage space.

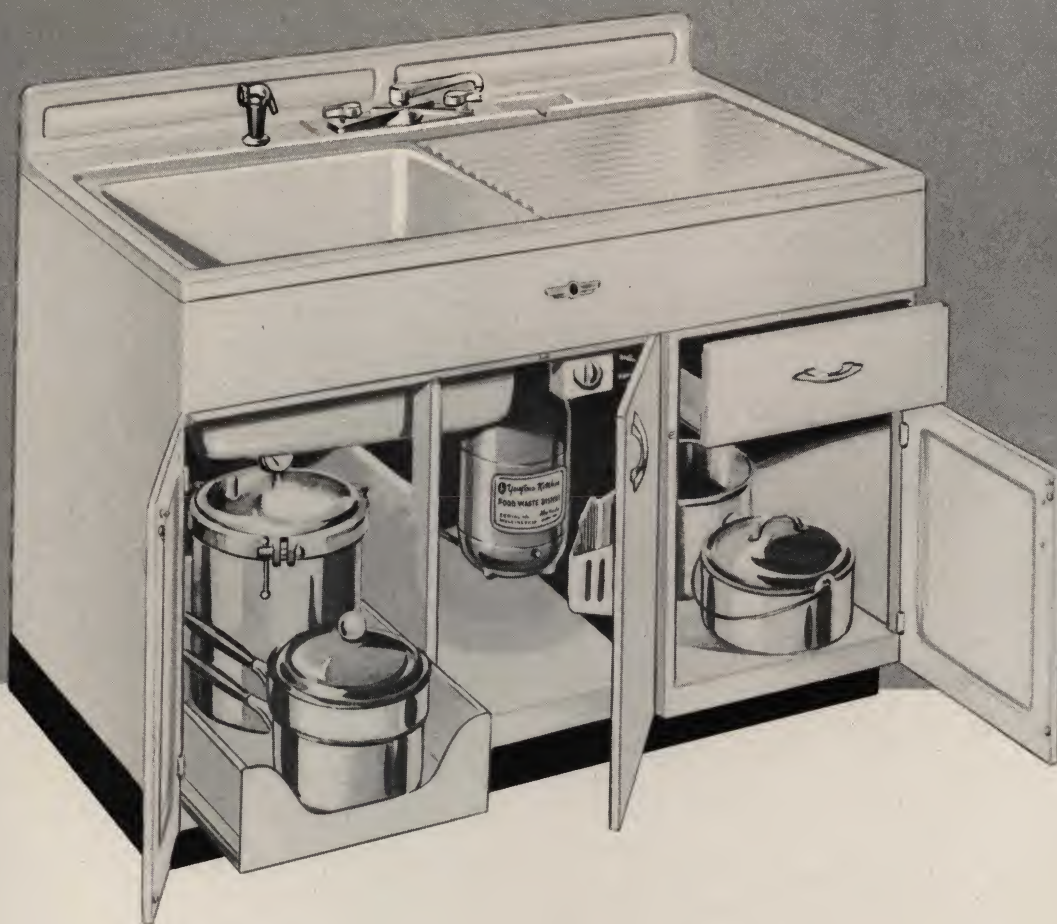

HUGE STORAGE COMPARTMENT. Twin doors under sink open on space for wastebasket, cleaning equipment, electric mixer, toaster, pots and pans, and other bulky kitchen items. Youngstown Kitchens Food Waste Disposer can be easily installed.

KitchenAider
KITCHENAIDER
 48" DeLuxe Twin

KITCHENAIDER 48" DELUXE TWIN

48" Wide—24" Front-to-back—36" from floor to bowl rim

One of the most popular Kitchenaid models, the 48" DeLuxe Twin is an ideal combination of kitchen and laundry sink bowls; wonderful for apartments, cottages, or small kitchenettes where sink and laundry facilities are limited.

Built of sturdy steel to last a lifetime, it includes every step-saving feature a woman could want in a cabinet sink.

THE SINK TOP. Built of sturdy steel to last a lifetime. One-piece construction. Finished in acid-resisting porcelain enamel. Has impressed soap dish, and 4" back-splash to protect walls. Sleek, smooth, glistening finish whisks clean with a damp cloth.

SLIDING-REMOVABLE DRAINBOARD. Provides large, wide, handy work surface. Slides freely to cover either bowl. Easily removed when both bowls are used. Fluted, no-tip surface. Trigger-operated rinse spray reaches any part of sink top.

MIXING-FAUCET swings freely to either bowl or back out of way. Attractive metal handles add decorative touch.

TWIN BOWLS. Deep, curved no-splash bowls, easy to keep clean. One bowl is *extra-deep* (11"). Dishes can be washed in one bowl, and given a scalding rinse in the other. Also excellent for light laundry. Crumb-cup strainer catches refuse, is easily emptied. Simple twist closes drain stopper, converts bowl into

dishpan. Includes rubber-coated drain basket that fits snugly in bowls.

CABINET. Finished in Hi-Bake enamel, inside and out. Three free-swinging, insulated and sound-deadened doors, with concealed hinges and torpedo catches, provide easy access to large compartments. Large removable stamped-steel soap-box rack is fitted on back of center cabinet drawer. Plenty of space in the three large compartments for storing wastebasket, cleaning equipment, electric mixers, pots, pans and other bulky articles. Youngstown Kitchens Food Waste Disposer can be easily installed.

CUTLERY DRAWER has one fixed and three removable partitions to provide five handy cutlery compartments. Linoleum lined, to protect edges of cutting utensils. Double-wall construction, with heavy sound insulation. Operates smoothly, easily and quietly on brass runners. Will not warp, buckle, splinter or swell.

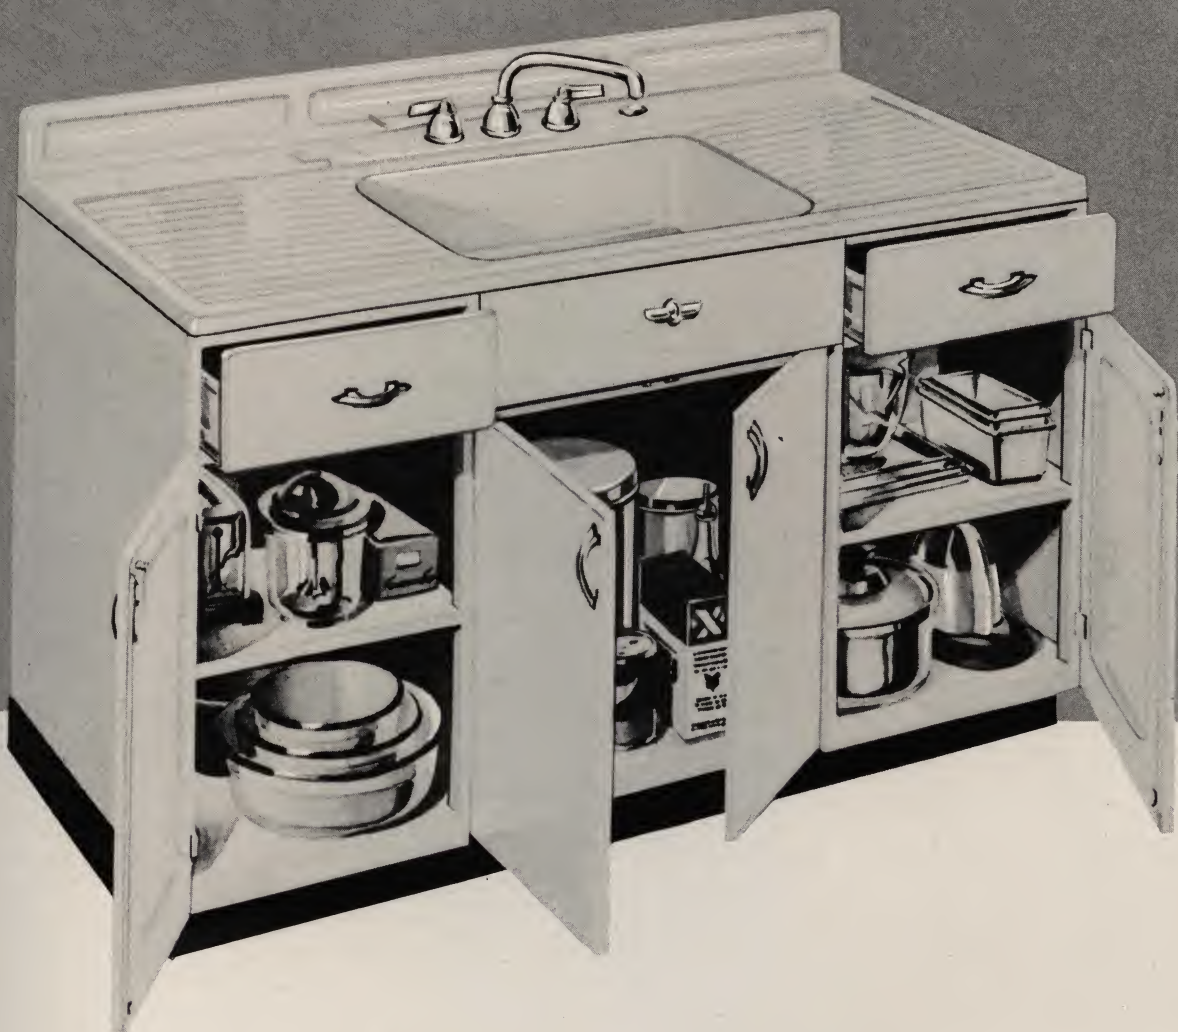

RECESSED PANEL in cabinet front and 4" set-back in sub-base assure plenty of knee and toe space. Correct height (36") takes strain out of standing.

Completely fitted with plumbing fixtures, the Kitchenaid 48" DeLuxe Twin comes ready for immediate connection to water and drain pipes. Total storage capacity: 10.50 cu. ft.

BY MULLINS

KITCHENAIDER 54" STANDARD

54" Wide—24" Front-to-back—36" from floor to bowl rim

This trim Youngstown 54" Kitchenaid cabinet sink is ideal for the small to medium-sized kitchen. Incorporating many desirable labor-saving features, it makes everyday kitchen chores easier.

THE SINK TOP. Built of sturdy steel to last a lifetime. Spacious one-piece top is finished in finest acid-resisting porcelain enamel with 4" back-splash and impressed soap retainer. Fluted work surfaces on both sides drain to bowl, yet are so planned that even a cocktail glass will stand on ridges without tipping. All surfaces wipe clean with damp cloth.

MIXING-FAUCET swings freely, 7½" spout convenient and attractive with long-lived metal handles.

BOWL. Gleaming, curved, no-splash bowl is wide and deep. Four-inch crumb-cup strainer catches refuse, is easily cleaned. Simple twist closes drain stopper.

CABINET. Finished in Hi-Bake enamel inside and out. Four free-swinging, insulated and sound-deadened doors, with concealed hinges and torpedo catches, provide easy access to large compartment. Shelves are provided on both right and left. Youngstown Kitchens Food Waste Disposer can be installed easily. Total storage capacity: 16.10 cu. ft.

TWO DRAWERS, wide, deep and spacious. Room for plenty of supplies, kitchen utensils. One drawer partitioned and linoleum lined for cutlery. Drawers run effortlessly on brass runners. No sticking. Drawer heads have double-wall construction with heavy insulation.

RECESSED PANEL in cabinet front and 4" set-back in sub-base give toe and knee space. Correct height of 36" takes strain out of standing.

The Kitchenaid is engineered and built to give years of trouble-free service without buckling or warping.

KITCHENAIDER
 66" Standard Twin

KITCHENAIDER 66" STANDARD TWIN

66" Wide—24" Front-to-back—36" from floor to bowl rim

Right start for a beautiful kitchen! This handsome 66" Standard twin-bowl Kitchenaid is designed to speed kitchen chores while providing generous, well-planned storage space.

THE SINK TOP. Built of sturdy steel for lifetime service and includes many modern step-saving features. Spacious one-piece top is finished in the finest acid-resisting porcelain enamel, with 4-inch back-splash and impressed soap retainer. Fluted work surfaces on both sides drain to bowls, yet are so planned that even a cocktail glass will stand on the ridges without tipping. All surfaces wipe clean with damp cloth.

MIXING-FAUCET swings freely to either bowl or back out of the way. Generous size—9". Attractive, long-life metal handles.

BOWLS. Twin, curved no-splash bowls are deep, roomy, easily cleaned. Four-inch crumb-cup strainers catch refuse, are readily lifted out to be emptied. Simple twist closes either drain, converts either bowl to dishpan.

CABINET. Finished in Hi-Bake enamel, both inside and out. The glistening white surface whisks clean with a damp cloth. Four free-swinging, insulated and sound-deadened doors, with concealed hinges and torpedo catches, provide easy access to three large compartments. Side compartments are provided with fixed metal shelves. Giant center compartment will hold pail, large pots and pans. Center compartment is of sufficient size for installation of Youngstown Kitchens Food Waste Disposer. Total storage capacity: 17.5 cu. ft.

TWO DRAWERS. Drawers are provided below each drain-board. Drawers slide easily on brass runners even when heavily loaded. Double-wall construction with heavy insulation—will not warp or buckle. Finest chrome hardware throughout.

RECESSED PANEL in cabinet front and 4" set-back in sub-base assure plenty of knee and toe room. Correct height (36") takes strain out of standing.

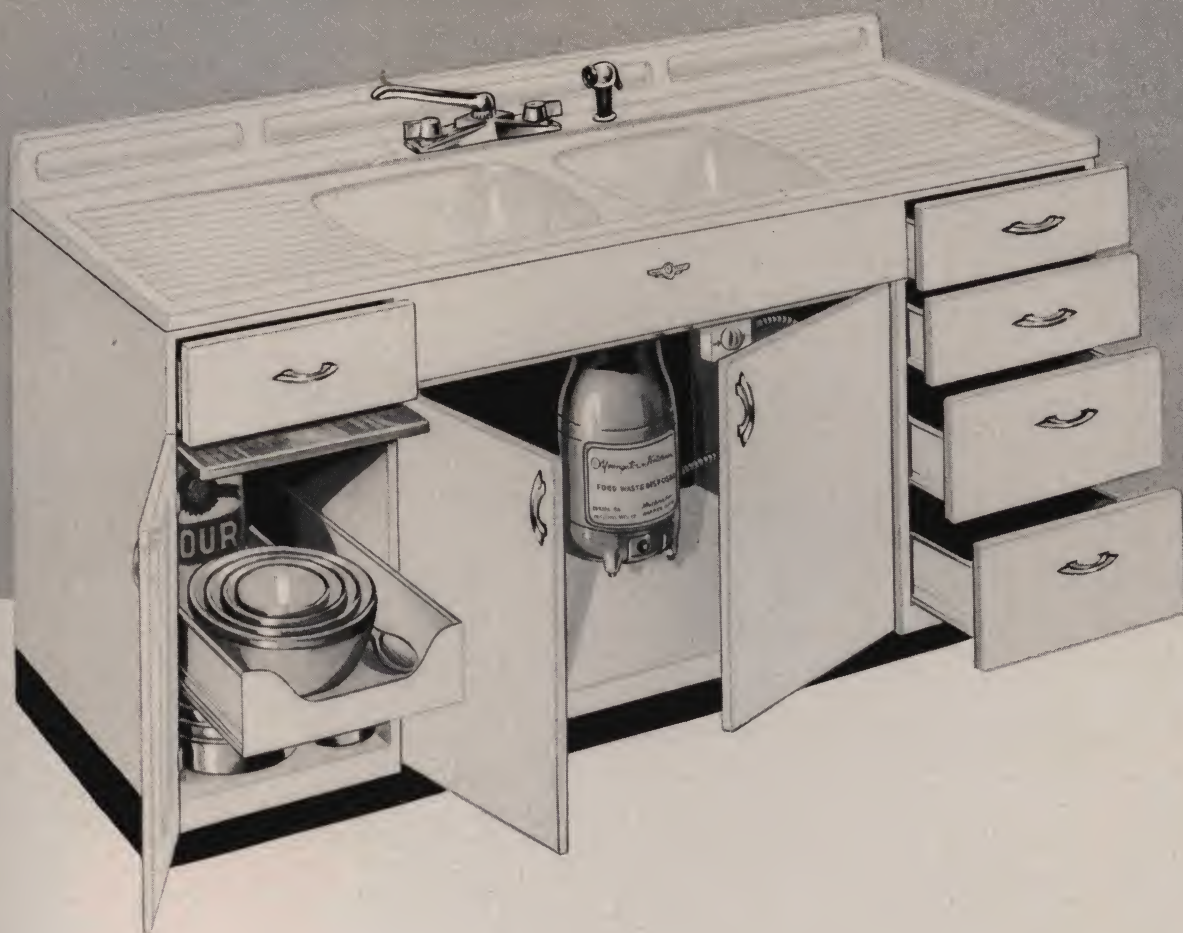

The 66" Standard Twin Kitchenaid is fitted for fast, easy connection to house water and drain pipes.

 BY MULLINS

KITCHENAIDER 66" DELUXE TWIN

66" Wide—24" Front-to-back—36" from floor to bowl rim

The heart of a dream kitchen! This beautiful Kitchenaid 66" twin-bowl deluxe cabinet sink lets a housewife breeze through kitchen chores. Truly it's a far cry from the old-fashioned, dingy, back-breaking sink.

Built of sturdy steel to last a lifetime and designed to include every major modern step-saving feature.

THE SINK TOP. Spacious one-piece top is finished in the finest acid-resisting porcelain enamel. Includes impressed soap dish and 4-inch back-splash. Glistening surface whisks clean with a damp cloth.

TWIN DRAINBOARDS. Double, fluted drainboards provide plenty of work surface. No-tip design. Porcelain-enameled steel.

MIXING-FAUCET. Swings freely to either bowl, or back out of the way. Spout is 9 inches. Handles are of bright, long-life metal. Flexible rinse spray speeds dishwashing.

TWIN BOWLS. Curved, no-splash bowls are deep, roomy, easily cleaned. Four-inch crumb-cup strainers catch refuse, are easily cleaned. Simple twist closes drain stopper, converts either bowl into a dishpan.

CABINET. Finished in Hi-Bake enamel, inside and out. Twin doors under bowls give easy access to huge storage com-

partment. Doors are heavily insulated and of double construction. Torpedo catches, positive acting (will not stick). Additional storage compartment under left side drawer contains sliding shelf for heavy articles, such as mixers or oversized utensils, with space below for trays, platters, bulky items, sliding-removable breadboard. Left door of center compartment holds handy, removable soap-box rack. Youngstown Kitchens Food Waste Disposer can be installed easily. Total storage capacity: 17.50 cubic feet.

FIVE DRAWERS. Wide, deep, spacious. Room for plenty of supplies. One drawer is specially designed for cutlery, lined with sound-deadening linoleum and equipped with one fixed and three removable partitions to provide five convenient cutlery compartments. A second drawer is deep enough to hold ventilated bread or cake box. Remaining three drawers hold dozens of items. All drawers slide easily, quietly on brass runners, even when fully loaded.

RECESSED PANEL in cabinet front and a 4" set-back in sub-base assure plenty of knee and toe space. Correct height (36") takes strain out of standing.

The Youngstown Kitchenaid 66" DeLuxe Twin is built throughout for a lifetime of wonderful service.

WALL CABINETS

STEEL
Youngstown Kitchens

BY MULLINS

WALL CABINETS

Whatever the size of the kitchen, a trim, smart, step-saving arrangement of Youngstown wall cabinets can be arranged from the many sizes and styles available to provide maximum storage facilities for the housewife.

Cabinets are sturdy all-steel construction, built to last a lifetime, finished in Hi-Bake enamel inside and out. All surfaces are easily cleaned with zip of damp cloth. Cabinets arrive completely assembled, ready for installation. They have flush backs with recess at top for use of hanger bar in remodeling installations. A metal hanger bar is furnished with each cabinet.

DOORS AND SHELVES. All doors are sound-deadened with heavy insulation, have positive-action catches and are equipped with rubber bumpers to cushion closing. Doors swing wide on semi-concealed hinges. All shelves are rigidly welded into place before finishing for greater strength in both cabinet and shelf. Bottom shelves are double-floor construction. Split shelves are available as noted below. Chrome handles. All cabinets are

13" front-to-back to provide uniform alignment on the walls.

30" high double door wall cabinet

Three large compartments. Easily-reached handles. A size for nearly every wall space. Six widths: 18", 21", 24", 27", 30", and 36". The 36" width (shown) has split shelf for tall articles. Others have standard shelf-type compartments. All 30" high, 13" front-to-back.

Single door wall cabinet

Three big compartments. Easily-reached handles. Door hinged left or right (be sure to specify hinge position desired). One size: 15" wide, 30" high, 13" front-to-back. 3.26 cu. ft. storage space.

18" high double door wall cabinet

Two compartment style. Easily reached handles. Doors swing wide. Five widths: 18", 21", 24", 30", 36", All 18" high, 13" front-to-back. The 36" width has split shelf for tall articles.

BASE CABINETS

Youngstown ^{STEEL} *Kitchens*

BY MULLINS

BASE CABINETS

Every installation should include a Youngstown base drawer cabinet where possible. These sleek practical Youngstown units provide extra-roomy space for storage of everything from silverware to vegetables, as well as wide clear areas of convenient working surface. They can be easily combined with each other in any grouping the customer desires, or used individually in spaces as available. Use them as separate units for heavy traffic areas near doors, in the pantry or laundry, or on a back porch.

Cabinets are all-steel construction, built to last a lifetime, finished in glistening Hi-Bake enamel inside and out. Surface wipes clean with zip of damp cloth.

TOPS. All base cabinets are packaged without tops, permitting use of either continuous or unit tops. All tops are covered with thick, long-wearing, clatter-proof linoleum cemented to steel sub-top and have 3" stainless steel splashback and trim.

DOORS AND DRAWERS. Drawer heads are flush. Doors and drawers are sound-deadened and equipped with rubber discs to cushion closing. Doors have positive-action torpedo catches that snap shut instantly. Light brass runners in steel guides let drawers glide smoothly, easily at touch of fingertip, even when heavily loaded. Shelves are rigidly welded in place before finishing, giving added strength to both cabinet and shelf. Semi-

concealed hinges. Chrome handles. Doors and drawers won't warp, buckle, stick.

SUB-BASE. Height and recess of sub-base is 4" to match all base cabinets and Kitchenaiders.

SEALER INSERTS. Tops of all base cabinets may be tightly sealed to tops of adjoining Kitchenaiders or other base cabinets with the exclusive Youngstown sealer insert for a continuous dirt-proof, liquid-proof working surface. (See sealer insert catalog sheet.)

Double door base cabinet

Five widths: 21", 24", 27", 30" (all with single drawer) and 36" (with double drawers, as shown). All 36" high, 24" front-to-back. Two big, deep compartments. Solid, sturdy, strong.

Four drawer base cabinet

Two deep and two extra-deep husky drawers. Third drawer is big enough to take a metal bread or cake box. Three widths: 15", 21", and 27". All 36" high, 24" front-to-back.

One drawer base cabinet

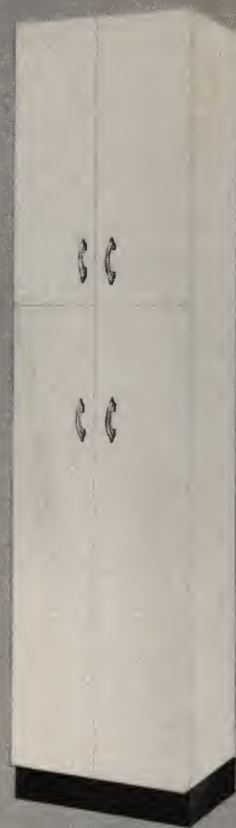

Two roomy compartments. Large drawer. Door hinged left or right (specify hinge position when ordering). Two widths: 15" and 18". Both 36" high; 24" front-to-back.

BROOM and LINEN CABINETS

^{STEEL}
Youngstown Kitchens

BY MULLINS

BROOM and LINEN CABINETS

(Utility cabinets)

These handsome husky Youngstown utility cabinets require a minimum of floor space, yet add a whole closet area to a kitchen, pantry or laundry. While ideal for any kitchen, they are especially useful where every inch of space must carry its share of the load.

SIZE. Cabinets are rugged all-steel construction, finished in glistening Hi-Bake enamel inside and out. Smooth, gleaming surface is easily cleaned with damp cloth. Size: 21" wide, 13" front-to-back, 84" high (to line up with tops of wall cabinets). Sub-base is 4" high to match all base cabinets and Kitchenaiders and recessed $1\frac{3}{4}$ ". 11.08 cu. ft. storage space in each.

DOORS AND SHELVES. Doors are sound-deadened and equipped with rubber bumpers to cushion closing. Positive-action torpedo catches snap shut instantly, quietly; hold snug.

Shelves are rigidly welded into place for greater strength in shelf and cabinet both. Semi-concealed hinges. Chrome handles.

Broom cabinet

Main compartment is large enough to hold vacuum, broom, dry mop and smaller cleaning accessories. Two large shelves hold waxes, polishing cloths, brushes, other cleaning supplies. An invaluable cabinet that keeps these awkward supplies in one compact, convenient spot . . . out from under the housewife's feet.

Linen cabinet

Keeps linens fresh as the day they were ironed. Wonderful in kitchen and upstairs. Six large sections take full supply of towels, sheets, cloths. Extra-large space at base holds tall containers, large equipment and utensils.

CORNER
WALL CABINET
Decorative flourish

Youngstown ^{STEEL} *Kitchens*

BY MULLINS

CORNER WALL CABINET

This spacious Youngstown corner cabinet can be used to turn the corner with a line of Youngstown wall cabinets (as shown), to end a line of cabinets at the wall corner, or individually to put a gaping idle corner to work in the kitchen.

SIZES. All-steel construction. Standard glistening Hi-Bake enamel finish inside and out. Cabinets are 30" high, 25" along each back wall, 26 $\frac{3}{4}$ " from front to back corner. 9.4 cu. ft. storage space . . . more storage capacity than the average home refrigerator! This corner cabinet easily holds 170 ordinary dishes.

DOOR AND SHELVES. Door on semi-concealed hinges swings wide for easy access to all three big compartments. Sound insulation and rubber bumpers prevent clatter, slamming. Positive-action catches snap easily, firmly. Chrome door handle. Shelves are rigidly welded into place before finishing for greater strength in both cabinet and shelves. Bottom shelf is double-floor construction.

Two 24" self-aligning hanger bars are packed with each corner wall cabinet.

Rotary Corner Base Cabinet (Closed)

Youngstown **ROTARY CORNER BASE CABINET**

(For specifications covering above unit see back of this page.)

Youngstown Kitchens

BY MULLINS

ROTARY CORNER BASE CABINET

31" along each wall—24" Front corner to wall—36" High

NOW—with this clever *rotary* corner cabinet—there's no such thing as the inaccessible "back of the corner shelf!" Has three sturdy shelves that revolve together to bring any item right up front where you can reach it without upsetting or removing other objects! It's the wonderful new corner cabinet that puts everything within easy reach.

CABINET. Cabinet is of welded steel construction, finished in gleaming, easy-to-clean Hi-Bake white enamel inside and out. Top is of tough, long-life, resilient, clatterproof Youngstown Cusheen, bonded to steel. Cusheen is a new development in top surface materials and is found exclusively on Youngstown Kitchens base cabinet units. Available in ten exclusive Youngstown colors to match any kitchen color scheme. Continuous or

unit tops available for this and adjoining cabinets. 3" stainless-steel back-splash protects walls.

SHELVES. The circular, rotating shelves are finished in Hi-Bake white enamel. Each has a lip around the outer edge to prevent articles on the shelves from falling off. Shelves rotate easily at finger-tip pressure on ball bearings. Shelves enclosed at rear to prevent "lost" articles.

DOOR. The door is sound-deadened. Rubber discs cushion the closing of the door. Door handles and other hardware finished in glistening chrome.

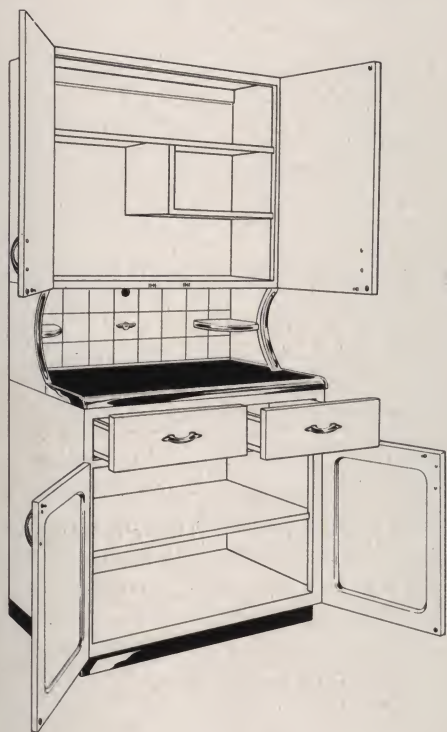

SUB-BASE. Height and recess of sub-base: 4" to match other cabinets and Kitchenaiders.

KITCHENS**

36" Free-Standing Unit

STEEL
Youngstown Kitchens

BY MULLINS

YOUNGSTOWN KITCHENS 36" FREE-STANDING UNIT

36" Wide—24" Front-to-back—6' 6" Over-all height

Now anyone can enjoy the advantages and convenience of Youngstown Kitchen equipment.

The Youngstown Kitchens 36" Free-Standing Unit is designed for use in any room where additional storage is required. It may be moved from room to room, or from one building to another. This unit is steel construction throughout and is finished in sparkling, white, easy-to-clean Hi-Bake enamel.

UPPER CABINET is identical in size and appearance with the Youngstown 36" wall cabinet. Double doors give easy access to conveniently shelved compartment. Split shelf provides for storage of tall articles such as bottles, while making additional space usable. Doors are double-wall construction, heavily sound-insulated. Torpedo catches for positive closing.

TILE BACK is offered with trim in a choice of three colors: Marbelle red, Chinese red or black to match the top. The chromium-plated cockhole cover may be removed for wiring if a fluorescent lighting fixture is installed to light the counter surface. Curved corner shelves furnish a handy storage space for condiments or small, often-used items.

BASE CABINET is furnished with a long-wearing, clatterless top in a choice of three colors, matching the tiled back—Marbelle red, Chinese red or black. Top is trimmed with gleaming chrome. Two roomy drawers slide freely on brass runners. Drawers are sound-insulated. Twin doors open to shelved compartment. Set-back of 4" in base gives toe space for comfortable, close-up standing. The correct height of cabinet top—36"—eliminates strain and helps make work easier.

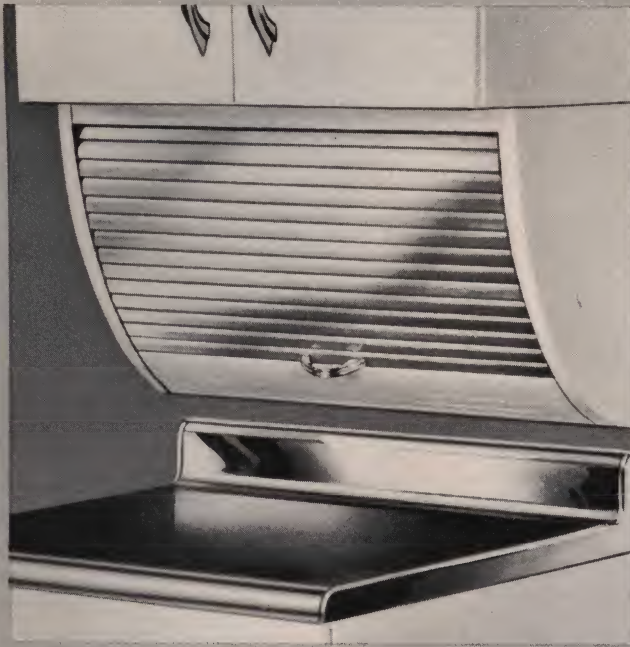

YOUNGSTOWN QUALITY THROUGHOUT. The Youngstown Free-Standing Unit is built throughout to highest quality standards. Many extra value features are included. Door and drawer handles are of heavy chrome, built to fit the hand. Rubber bumpers are provided on doors for silent closing. Heavy welded steel will not warp or buckle. In every respect the Youngstown Free-Standing Unit will give a lifetime of efficient, trouble-free service. Design matches other Youngstown Kitchen units so that the Free-Standing Unit may serve as the basis of a complete Youngstown Kitchen for future installation.

ROLLING DOOR CABINETS and WHAT-NOT SHELVES

Rolling door cabinet

This trim, attractive modern unit can save even more steps for a housewife in her stunning streamlined Youngstown Kitchen.

SIZES. Rolling door cabinets come in widths of 18" and 24"; are 10" front-to-back at top and 14" high. They fit snugly beneath a 30"-high wall cabinet.

SHELVES. Two ample shelves keep condiments, spices, small kitchen articles handy to the work surface below. Also provide convenient space for placing cocktails, salads and desserts until served, or for storing cups and saucers used daily.

FEATURES. Sleek rolling door slides smoothly up out of way when cabinet is open. Stays open or closed without springs or catches. Basic cabinet structure is steel, finished with glistening

Hi-Bake enamel to match other cabinets. Door section is made up of white plastic ribs.

What-not shelves

These decorative, practical units are an ideal item for the gaping corners between wall cabinets and a wall or window, or for wall corners just above the Kitchenaid cabinet sink and many other places in the modern kitchen.

SIZE. All are 30" high to match height of 30" wall cabinets. Shelves are 10" wide on one side, 7" on the other and are equally spaced 10" apart. They may be installed with either side against the wall, depending on the space.

All-steel construction with white-enameled finish to match other cabinets.

NOTE: If top has two bottom support channels, it will be necessary to cut "fill-in" channels to fill space available.

BASE CORNER FILLER END PANEL

CATALOG Numbers 19509 and 19510

PART No. 19509
LEFT HAND END PANEL

PART No. 19510
RIGHT HAND END PANEL

End panels for base corner filler right and left, to fill space where base corner filler is used with no adjacent cabinet. No recess toe space on side, —but recess toe space is on front.
